

## APRIL ORDERING GUIDELINES FOR SCHOOL YEAR 2016–17

The ordering guidelines listed in the chart below are for the state-adopted instructional materials that schools will order through Destiny during the April 11–26 Preorder. Each order will require PowerSchool enrollment data. For science kit orders, PowerSchool enrollment data with teacher roster will be required.

For Science K–5, districts will make their selections for a core resource program (Discovery Education or Pearson) and the state-funded science kits (Carolina and/or Delta). The state funded kits for elementary science address the new content or grade level content shift in the *2014 South Carolina Academic Standards and Performance Indicators for Science*. Schools will continue to maintain existing kits or purchase updated editions of the kits using their district’s Science Kit Refurbishment allocation. To aid schools in maintaining and/or updating kits, the refurbishment funding may be used to purchase: 1) the kits that were adopted as recommended but not funded and/or 2) supplemental materials posted on the web using the link: [http://www.mysctextbooks.com/DOCS/SupplementalScienceKits\(FY2016-17\).pdf](http://www.mysctextbooks.com/DOCS/SupplementalScienceKits(FY2016-17).pdf). Additional funding for district’s Science Kit Refurbishment allocations will be considered after the Legislature approves the FY 2016–17 budget.

Should a district have a Science K–5 specific need or decide to use only science kits, the request should be submitted in writing to Clare Luther, manager of the Office of Instructional Materials ([clluther@ed.sc.gov](mailto:clluther@ed.sc.gov)), before the start of the April 11<sup>th</sup> Preorder. The Office of Instructional Materials will provide the district with additional guidelines for their request.
